Regular tests and assignments.

Discipline must

It's just my opinion

Not sure

Should make the strong rules for those who create indiscipline in class

There will be Mike in the classes to listen the teachers clearly

✓Kindly repair the computer lab.

✓Be sure to provide a fully digital campus with High speed internet in labs.

✓Make sure that time table of classes is accurate and no clash is there.

Digital learning should be encouraged.

Students should be taught about competitive exams

Higher studies knowledge should be imparted

Good teaching

Its all fantastic

In my ist year after two or three months our physic teacher got transferred to another place and for the next whole time no teacher is provided to cover the uncompleted syllabus, before exam approximately 7-8 lectures being taken by another faculty and 7-8 days they completed 75% syllabus which is just unsatisfied thing So Please improve this system and provide proper faculty if a teacher is got transferred in mid of the session

Take tests to examine the progress of .students
 Give daily basis assignment to students
 At least in a month ..students will be guided for their future also....

Need English teacher and discipline in campus

1: Topics should be explain more thoroughly
 2: little bit of past studied related to a topic we presently studing can be discussed so that student can recall it

Please manage time table of morning classes 10:00am start

More internship schemes should be provided.

Teacher should be respectful towards students also
 Should help out with doubts
 Should complete whole syllabus IN time

Institute should emphasize more on practical learning rather than just theoretical learning

What more can be expected from ateacher teaching 100 students class in 40 minutes period .

No suggestions, everything is going good.

1st .. Some teachers are not good but some of the teachers are excellent

All are good but make it perfect...

1. Equal way of talking with every student.
2. Stay cheerful with students.
3. By friendly behaviour with students in classes.

Many teachers not even attend classes. If a teacher is transferred than their will be no class for whole year(in 2021-2022 session bsc 1st year "EMT AND ELECTROMAGNETICS" Subject teacher transferred and whole sallybus remains uncompleted and near annual examination a teacher share a page in whatsApp group and tell us that learn this questions for annual exams. I surprised that what is going on. I AM PURSUING BSC FOR KNOWLEDGE NOT FOR JUST A PIECE OF PAPER SO CALLED "DEGREE".IF THIS TYPE OF BEHAVIOR GOES ON THAN IT'S VERY DIFFICULT TO STUDY HERE. I HOPE YOU TAKE RIGHT ACTION ABOUT IT.
 THANKS 🙏

Classes should be taken regularly
 To create excitement among the students to learn new things

Teachers should pay attention towards all students equally not only towards class toppers 2
 Teachers should use oneline methods 3 Teachers should take regular class tests.

Teacher are very good they help us improve our learnings

Study should not be syllabus oriented but should be conceptual, problem solving and competative type.

There should be a 1 hour of query solving class for each subject, once in a week.

There should be the special internship programs for higher class students, where they should be able to share their knowledge with the lower grade students.

And the most important is that, those books are allowed which are important for the subject or carrier like quantum but not polymers.

Thanks.

1 test in week, proper time table, teacher intractact with students properly and they need to motivate the students and does not demotivate the students.

Teacher need to motivate the students, test in a 1 week

teachers need to motivate the students and one test in one week

Ashish

- 1) New technology monthly updates can be given. activity based learning may be implemented.
- 2) course can be more research oriented.

3) Many competitions can be conducted and more informative seminars, lectures by an expert required.

1. Examples based teaching should be there.
2. Regular Teacher's students conversation about the current topics in the class should be involved.
3. Institution higher authority should also be involved in order to know the interests of students, that how much they are satisfied with Teacher's way of teaching.

Teacher has to take regular test as the chapter complete

Teacher has to revise the previous lecture or ask the questions based on previous lecture in starting of every lecture

Teacher has to try to make class activate by some interesting examples because a continuous teaching can make class boring

1. The syllabus should be covered in such a manner that the students can compete well in master's entrance exam.

Well communication with students ...

1. Every student teacher interaction should be must

Strongly agree

So very excellent

Add teachers for other departments. And maybe if some technical activities added, tours for vacation, and many other things that makes students active and happy then it will be the best
