

Student Achievement Report

School of Computer Applications

Date: 13/07/2026

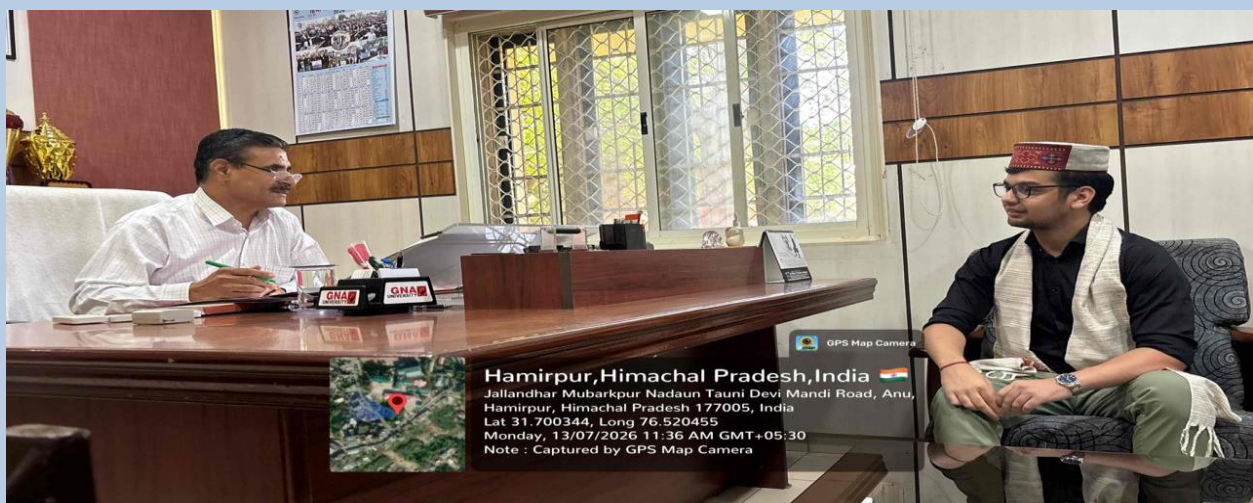

Akshat Sharma, a student of the School of Computer Applications, Netaji Subhash Chandra Bose Memorial (NSCBM) Government College, Hamirpur, has brought immense pride to the institution by being selected as a Young Trade Leader 2026 by the World Trade Organization (WTO). He is pursuing the Bachelor of Computer Applications (BCA) and has earned this prestigious recognition by becoming one of only seven young leaders selected from over 1,300 applicants across the world.

The WTO's Young Trade Leaders Programme recognizes outstanding young individuals who have demonstrated exceptional leadership, innovation, and commitment towards shaping the future of global trade. As part of this prestigious programme, Akshat will participate in

international training sessions, mentoring activities, and the WTO Public Forum to be held in Geneva, Switzerland, where he will represent India and contribute to discussions on global trade and sustainable development.

Apart from his academic pursuits, Akshat is the founder of Brevon Education, an initiative dedicated to promoting Artificial Intelligence (AI), Robotics, and STEM education among students in rural communities. Through this initiative, he has been working to bridge the digital divide by making modern technologies accessible to students in underserved areas, thereby inspiring innovation and digital empowerment.

With this remarkable achievement, Akshat has made his college, teachers, parents, and the entire state of Himachal Pradesh proud. The Principal, Dr. Satish Soni, faculty members of the School of Computer Applications, and fellow students congratulated him on this outstanding accomplishment and wished him continued success in all his future endeavors.

On this occasion, Akshat Sharma expressed his heartfelt gratitude to the Principal, faculty members, and non-teaching staff of the college for their constant guidance, encouragement, and unwavering support. He also thanked his parents, mentors, and friends for believing in him and motivating him to pursue excellence.

Akshat shared that this recognition is the result of hard work, perseverance, and the quality education and opportunities provided by NSCBM Government College. He encouraged fellow

students to dream big, remain dedicated to their goals, and utilize technology for the betterment of society.

Conclusion

Akshat Sharma's selection as a **WTO Young Trade Leader 2026** is a landmark achievement for the **School of Computer Applications, NSCBM Government College, Hamirpur**. His success reflects the institution's commitment to academic excellence, innovation, and holistic student development. His accomplishment will inspire students to strive for excellence, embrace leadership, and contribute meaningfully at both national and international levels. The college remains committed to providing a nurturing environment that empowers students to achieve distinction in academics, research, innovation, and global leadership.

Hamirpur's Akshat among seven trade leaders of WTO

HAMIRPUR, JULY 7

Akshat Sharma from Hamirpur town has been selected as a Young Trade Leader 2026 by the World Trade Organisation (WTO), becoming one of just seven individuals chosen from across the world under the programme. The WTO's year-long Young Trade Leaders Programme brings together some of the world's most promising young voices to contribute to discussions and

initiatives shaping the future of global trade. An alumnus of Him Academy Public School (HAPS), Akshat is currently pursuing a Bachelor of Computer Applications (BCA) at Government College, Hamirpur. He is the son of Mridula Sharma, a teacher at HAPS. Speaking to *The Tribune*, Akshat said he would join the programme in Geneva, Switzerland, in September. He added that the other selected participants are from Singapore, the Slovak

and Morocco. Akshat is also the founder of Brevon Education, an initiative that aims to bring artificial intelligence (AI) and robotics education to rural communities that have traditionally been overlooked. Through the initiative, he seeks to take emerging technologies to village classrooms and bridge the digital learning gap. Expressing her pride, Mridula Sharma said Akshat was determined to take his mission to the glob-

al stage and ensure that access to technology reaches every child, whether in the smallest villages or the largest cities. This is one of the proudest moments of my life. Every parent dreams of seeing their child make a meaningful contribution to society. I hope Akshat's journey inspires young people across India to believe that dedication, continuous learning and integrity can take them to the world's most respected platforms,' she said.
