

Celebration of “World Hepatitis Day-2023

The World Hepatitis Day was observed in NSCBM GC Hamirpur on 28/07/2023. For this purpose an awareness program was organised in the Science block, room no. 243. The theme of the programme was : Awareness and precautions of Hepatitis. Nodal officer of the Red Ribbon Club, Sanjay Chauhan (Assistant Professor of Zoology) talked on the purpose of celebration of this day. Information about type, mode of transmission, symptoms and precautions regarding Hepatitis disease to avoid being its victim was provided to students. The myths associated with this disease were also explained by him. The HOD of Zoology Department Prof. Vijay Kumar were also insinuate the students about the role of hygiene to avoid this disease. All type of publicity materials related with Hepatitis disease were displayed at the venue.

Principal Dr.Promod Patiyal urged all present there to take the message to the friends, family members and society and to make contribution in creating awareness about this disease. He said that being the educated persons it is our moral responsibility to make society aware about Hepatitis disease and all the issues which need the attention of the general public.
