**About the College:** Established in the year 1965, the college is a pioneer of higher education in the entire state. It provides best infrastructure, faculty and sports facilities to its students. Catering to approximately 5000 students, the college is considered among the best and most sought after college of the state.

**About the Department:** Department of Botany stands as one of the earliest disciplines of the college. Over the years it has produced students who have not only excelled in science but in all fields of the society. The department was elevated to PG level in 2019, maintaining a consistent record of academic excellence.

**About the Event:** The Lecture series aims to enhance student's understanding of diverse scientific subjects, inspire curiosity, and foster a deeper appreciation for the latest advancements in Life Sciences. The series seeks to connect students with accomplished professionals, offering valuable insights that extend beyond the classroom and contribute to their overall academic and intellectual growth.

## **REPORT OF THE EVENT:**

Initiated by the Department of Botany, in collaboration with the Research and Incubation Cell & IQAC, a Lecture Series titled "WISDOM UNPLUGGED: TOP EXPERTS, ENDLESS INSPIRATION" was launched for both postgraduate and undergraduate students. The primary objective was to deepen the understanding of the latest advancements in the Life Sciences field and their practical applications by connecting students with accomplished professionals.

Dr. Adity Chopra, a Special Scientist from the Department of Immunology at Rikshohospitalet, Oslo University, Norway, inaugurated the event. She delivered an enlightening talk on "High throughput diagnostic using Microsphere array technology," providing a comprehensive overview of immunodiagnostics for SARS COVID infection. Dr. Chopra also shared insights into the contemporary avenues and career opportunities available for students in Life Sciences.

The event garnered active participation from over 100 students and faculty members, underscoring their keen interest and engagement. Dr. Pramod Singh Patial, the Principal of the college and Chief patron of the event, commended the efforts of the Head of Department (Botany), Dr. Vijay Kumar (Patron of the event), Dr. Kalpna Bhandari (Convener), and Dr. Virender Pratap Singh (Co-convener) for the successful launch of the Lecture Series and wished them luck in their future endeavors.
