Report on: Brainstorming and Impromptu Writing Session

The Debating society was formed with a vision to provide a platform to the youth for voicing their opinion, to spread awareness about topics that are relevant in today's world and to develop analytical as well as a critical skills necessary for professional and personal growth. Various activities were conducted by the volunteers of the debating society with an aim to:

1. ask questions before giving opinions on a particular topic,
2. find topics before delving into their pros and cons and
3. add the surprise element by presenting impromptu written session to make them adaptable towards any unforeseen situation.

The brainstorming session was **conducted in Room 129, on 4th March 2023** to pop out new topics and ask new questions that are deeply ingrained in our minds as unquestionable, around **half an hour** was given to the students to enlist the topics they find pertinent to their surroundings. They were given free hand to write whatever they wanted in order to remove the pressure of being judged by their peers. They partook in the session quite exuberantly. Then those topics were stored in digital form so as to use them for future debates.

Then an impromptu written session was conducted in Language lab on a topic to write the pros and cons related to it. The participants were also given a chance to speak up what they have written related to that topic to synchronise what they believed in was what they wrote and what they wrote was what they spoke.
